CREATIVE VISION UNIFORMS

is a potential vendor under the CREATIVE VISION GROUP that has trounced heights through decades with high-quality products and carefully calculated paces destined into customers' hearts. Backed by a strong team built through years of intense efforts and the utmost care, we are standing majestically at the forefront of the international market. We came to the uniform manufacturing sector through far-sighted calculations that standardized the need for every product to have a strong face in the competitive market.

Uniforms are a clever way to simplify complicated but inevitable processes such as marketing and branding of a product by firmly adhering strong positive image of your brand in the mind of every individual as nothing will stick to mind more than a visual. About a thousand companies, from educational sectors to high-end corporates, have crafted their uniforms with us in high-quality fabrics and stamped us as the only source of superior quality, comfortable and wearable uniforms.

The collaborations we accomplished till now include uniforms for vivid sectors like education, hospitality, healthcare, corporates, industrial, aviation, etc. With 200+ skilled workers, additional expertise, the latest machinery, and innovative ideas, we are leading in the global market as a relevant uniform manufacturer univocally preferred by many MNC companies across the world.

Our Motto

YOUR PERFECT UNIFORM PARTNER.

Since established in 2000, with the head office in UAE and a branch in QATAR, keeping and continuing practice on global standards being a multinational company, we insist on perfection throughout the collaboration. We manufacture uniforms to deliver equality, protection, hospitability, professionalism, and perfect fit. All ventures under the CREATIVE VISION GROUP have adhered to the principles of timeliness and superior quality products.

Custom T-shirts

Make it your own with the creative vision

With us, you have complete freedom to make a wide range of T-shirts and round neck T-shirts in demanded colours and materials.

Every industry has its specific requirements and necessities. We tailor your uniforms to fit your odd needs with our years of industry-focused experience in areas that range from safety and health concerns to corporates and large industries.

Screen Printing

Screen print with us to enjoy perfection and quickness in your every elegant customization need.

As a uniform manufacturer relentlessly taxing for perfection and dealing with bulk orders seeking the aid of Screen printing to satisfy the needs of valued customers is mandatory for us. Aiding advanced digital technology and traditional methods, Creative Vision Textiles is successfully screen printing on a range of uniforms, custom T-shirts, apparel, etc. Until now, there had been no exceptions or excuses for printing any favourite colours.

This printing method, which transfers dye into the apparel through mesh and stencil is an easy way to customize your T-shirts, even in bulk quantity within lesser time. We possess an expert team to do silkscreen printing, serigraphy, or serigraph printing, that why it is easy for us. Otherwise, the technical side is a bit complicated, that implicates only skilled labourers can perform error-free printing using this method. A slight deviation in the positioning of the image on the screen or the non-uniform distribution of force applied on the squeegee will deliver the worst result.

As we have the expertise and technical aids as assets, you can completely trust us with any requirements regarding screen printing. We are proceeding with utmost care in each step involved in screen printing since the selection of quality inks, application of pressures, and heat curing to get a durable final result. The adaption of CMYK printing by accepting the unstoppable demands of customers for multicolour printing is assisting us considerably in satisfying our customer's desires. Designs of up to four colours are perfect with it.

Computerized Embroidery

Give life to intricate and stunning embroidery designs simply through us.

Embroidery is an art that never goes out of style. There are no eras that have not got influenced by this stunning artwork done with needle and yarn. It is quite a wise move to seek the help of software to do embroidery works that have captured the consumer's mind while making everything small and big around easy with the software. The rapid hype in demand for the uniqueness of embroidering makes mechanization relevant. Undoubtedly computerized embroidery works faster than handmade ones without compromising the eye-appealing finishing look.

Creative vision is well-equipped with machinery that hastens the process of embroidering and ensures the optimum utilization of resources. With the help of less labour power, more intricate and mistake-free perfect embroidery work will be ready on the fabric that a person takes many days to finish. With the proven embellishing arts already done, customers can easily confirm that preserving traditionalism is possible with machinery. Creative vision textiles do the complete custom embroidery work using the latest sewing machine to accept file format feeding, reads the design, and then perfectly does the embroidery

- Fast and reliable
